Record of Town Meetings

MEETING OF MARCH 13, 1933

Meeting called to order at 7.32 o'clock P. M., by Moderator O'Connell, who read the call for the meeting.

On motion by M. E. S. Clemons:

Voted: That further reading of the warrant, with the exception of the Constable's Return, be omitted.

Constable's Return read.

ARTICLE 1

Article 1. To see if the town will vote to recommend to its several boards and heads of departments, in order that the burden suffered by all the public during the present financial stringency and depression, may be borne more equitably, that they reduce the salary or compensation of all officers or employees appointed or employed by them for any part of the current year.—Finance Committee.

Motion by Finance Committee:

That the town recommend that the salaries or wages of all appointed officers and employees as in effect on March 1, 1933, be reduced by the respective Department Heads or Board appointing them, at the rate of 5% per annum during the period beginning April 1, 1933 and ending December 31, 1933, and that consideration of such reductions be given when making appropriations under Article 6 for salaries of all elective officers.

Motion by Ernest Heywood:

That action under Article 1 be indefinitely postponed.

After considerable discussion, Mr. Heywood's motion was put to vote, and on a hand vote was declared carried.

The vote being doubted, the Moderator appointed Tellers, and the vote was counted, 760 voting in the affirmative and 403 in the negative, and the motion to indefinitely postpone was declared carried.

ARTICLE 1

Article 1. To see if the town will authorize the Water and Sewerage Board of the town of Wakefield to replace the cement water pipes of six to twelve inches in size inclusive, with iron water pipes

throughout the town or in certain sections or streets, and (b) appropriate a sufficient sum of money to pay for such work as may be authorized under clause (a) herein, such sum to be obtained by grant from the Federal Government so far as possible, the balance to be obtained by issuing bonds or notes or other evidence of indebtedness of the town and authorize the Treasurer with the approval of the Selectmen to issue such bonds or notes or evidence of indebtedness.—Board of Selectmen.

The Finance Committee reported in favor of this article, recommending acceptance of the following motion:

Motion: That the Water and Sewerage Board be authorized to replace cement water pipes of six to twelve (inclusive) inches with iron pipes of the sizes and in the sections and streets of the town as set forth in the schedule hereto annexed and made a part hereof, and that the town appropriate the sum of one hundred thousand dollars therefor. All money received from the Federal Government under the National Industrial Recovery Act on account of the foregoing work above authorized shall be applied to meet the appropriation herein made, and to meet the balance of said appropriation the Treasurer, with the approval of the Selectmen, is hereby authorized to borrow not exceeding seventy thousand dollars and to issue notes, bonds or other evidence of indebtedness of the town therefor, said notes, bonds, or other evidences of indebtedness to be payable in accordance with the National Industrial Recovery Act in so far as not inconsistent with said Act and in accordance with Chapter 366 of the Acts of Massachusetts of 1933 and Chapter 44 of the General Laws. The whole loan shall be payable in not more than five years or at such period as may be determined by the Emergency Finance Board, referred to in said Chapter 366 of the Acts of 1933.

The Board of Selectmen are hereby authorized and directed to make application on behalf of the town for a grant of money, the same not to be repaid, under said National Industrial Recovery Act.

All work done under authority of this vote shall so far as reasonably feasible be done by human labor and not by machines and shall be done under Federal and State laws governing the same.

This vote is conditional upon the Federal Government agreeing to or making a grant to the town of not less than 30 per centum of the cost of labor and materials employed in the performance of the work above authorized. The work hereunder shall not be let out by contract.

This motion was put to vote with the following result: Affirmative, 199; Negative, 1. Necessary two-thirds being attained, the motion was declared carried.

The duties of the Board of Selectmen have increased considerably from year to year. The year 1933 may stand out as the most trying during the period that has called for strict co-operation in order to meet an economic situation that has been perplexing to all municipalities. The Town of Wakefield, by following a policy of strict economy and by a candid and businesslike approach to municipal problems, closes the fiscal year in a very favorable financial position.

We have been able to reduce the tax rate without resorting to borrowing for that purpose. The Board of Selectmen has strongly recommended and has closely adhered to this policy so as not to mislead the taxpayers by artificial prosperity, or by mortgaging anticipated receipts.

The Highway Department, with a greatly reduced budget, has had to carry on the usual work of highway repairs and maintenance. Our highway budget for 1933 was \$62,500. In order to supplement this budget, we have followed the policy of obtaining State and County aid for permanent street construction or improvement. We have received from the State and County approximately \$14,000. We have used this money to help in resurfacing Main Street from Hart's Hill to the Bennett Street railroad crossing, and to rebuild Lowell Street from the Reading line to Main Street. By this means we have eliminated a road condition that was extremely dangerous for highway traffic. With State and County aid we also have done some work on widening Main Street along Lakeside. We strongly recommend that the town follow this policy of supplementing the annual highway budget by obtaining a substantial amount of State and County aid each year.

The town budgets, and especially the highway budget, have been reduced owing to the great demand on the Welfare and Soldiers' Relief Departments. The town has appropriated a large amount of money for relief purposes. In order that the town might obtain value for this money, we have set up a project committee and, through the Highway Department, we have supervised construction work that adds a considerable amount to the capital assets of the town. Through the Soldiers' Relief appropriation we have constructed granolithic sidewalks on both sides of Main

Street in the business district. We have also extended the concrete walk with concrete edgestone along Lakeside for a considerable distance. Through the use of welfare help we have supplemented our work on resurfacing Main Street and we have considerably improved the triangular plots at the intersection of Prospect and Elm Streets. There are numerous other projects which have been completed in this way.

The Board of Selectmen was called upon to handle presentation of projects under Civil Works Administration. Through our sub-committee on projects, we are ready, without any delay, to present these projects for approval. The quota of men originally allotted to this town was approximately 369. The board has presented and has had allowed projects providing work for approximately 600 men and women.

In presenting projects under C. W. A., we have closely followed the policy of submitting projects that will greatly add to the town's capital assets. For the major part, we have recommended drainage work and from the work now being accomplished on these projects we feel that we made a wise choice. The improvement of drainage conditions will add greatly to the value of real estate and will relieve the poor drainage conditions that would have cost the town considerable amount of money in the near future. Drainage projects strictly follow the engineering specifications set forth in a complete drainage survey of the town made by Weston & Sampson, engineers. Consequently, drainage projects are not patchwork, but are part of a complete drainage system anticipating future needs of the town.

The increasing demands placed on the Highway Department this year have found that department well organized and ready to meet the situation. It was owing to the fact that the Highway Department was in good financial condition that we could meet the expenses for materials under C. W. A. projects without resorting to calling a town meeting for the purpose of transferring funds. For this reason, men working in C. W. A. projects were able to begin work without delay and without waiting about three weeks for town meeting action. For this reason we believe the Highway Department particularly deserves our commendation.

Other town departments under our jurisdiction have co-operated with us and we believe they have performed their work well.

We have co-operated with the Water and Sewer Board with reference to the Public Works Administration project pertaining to the relaying of water mains. Several times during the year we have had conferences with the public works departments not under our jurisdiction. We feel that in this way we have had, to a certain extent, the advantages of a Board of Public Works with resulting efficiency and economy. We wish to thank these boards for their help and co-operation. It was a pleasure for us to discuss town problems and policies with them.

The unemployment problem we consider to have been the major task

that confronted us. This report would not be complete if we did not say a word of appreciation for the patience and co-operation of those out of employment. In spite of the fact that town public works budgets had been greatly reduced, those who were not regularly employed by the town evidenced a feeling that we, as a board, appreciated their problem. When the Civil Works Administration made money available, we wasted no time in providing work projects. We have given time without limit in this way to do all in our power to help those in need of employment. Our endeavors in this direction have been all the more pleasant because we feel that our efforts have been appreciated. Our hope is that means will be made available whereby we can help every deserving applicant for work.

We appreciate the faithful services of our clerk, Harry A. Simonds. The town is fortunate in having a man so well qualified for the position he holds.

Report of Dept. of Public Welfare

To the Citizens of Wakefield:

We have now completed the fourth year of the present unemployment emergency. Demands for relief steadily increased from month to month until the 21st of November, when the C. W. A. work started. Relief burdens during the past four years have been unparalleled in the history of relief administration.

The character of our work, and the details of its administration are so similar from year to year that much of it is practically a repetition. However, this seems unavoidable and not important as we assume the object of our report is to have a condensed, official record at the end of each year for reference. A detailed statement of each case and its cause would be cumbersome and its publication questionable.

Relief of destitution is the primary responsibility of government and so when destitution increases it follows that expenditures go up. All taxpayers are naturally interested in the efficient and economical administration of relief. The long continuance of this emergency makes it necessary to use every means to keep expenditures down to the lowest possible figures.

ASSIGNMENT OF AID RECIPIENTS TO WORK

Beginning with April of this year, the Board of Public Welfare assigned men to work on numerous jobs in the various town departments in return for the aid rendered to them and their families. On Saturday mornings of each week, men were checked off at the office of the Board of Public Welfare and each man was assigned to do work of a kind that he was capable of doing.

The value of the services rendered by these men amounted to \$6,744.00 based on a wage scale of \$3.00 per day, for which the Welfare Department is given no credit in the financial statement of the Town.

A card system was installed on April 1st; each man received a card on Saturday morning marked where he was to report for work the following week. The foreman on the job stamped the card and the recipient returned this card to the Welfare Department on the next Saturday for verification.

Men who appeared to be in poor health, or men who complained of not being in the best of health and who felt that the work to which they had been assigned was too laborious, were also given a card which was stamped daily between 2 P.M. and 3 P.M., at the office of the Welfare Department. This procedure served a two-fold purpose — namely, to learn whether a man was trying to escape from doing any work when able to, or whether a man might be working elsewhere.

The assignments have been made to the following departments:

April, 1933, to November 30, 1933, inclusive

Highway Dept.	1291	men	@	\$3.00	per day	\$3,873.00
Park and Cemetery Dept.	267	"	"	"	"	801.00
Board of Health	193	"	"	"	"	579.00

Library	104	"	"	"	"	312.00
Water Dept.	59	"	"	"	"	177.00

Total	2248	men	@	\$3.00	per day	\$6,744.00
-------	------	-----	---	--------	---------	------------

Many beneficial projects have been carried out as a result of the utilization of all this labor.

The men have assisted in the construction of new roads, building sidewalks, cleaning streets and gutters, and removal of snow under the direction of the Highway Department.

The graves at Forest Glade Cemetery have been opened and the cemetery property in general has been greatly improved by the work of these men under the direction of the Park and Cemetery Department.

The Salem Street and Green Street dumps have been kept cleared. The Central Street dump also has been piped and re-graded by these men under the direction of the Board of Health.

Men have reported to the Moth Department for the removal of brush from the side of roads, cutting, trimming, and spraying trees.

Various improvements have been made for the School Department by painters and carpenters, namely, painting chain link fence at Walton Field,

building fence around the Montrose Schoolyard and clearing brush from Greenwood Schoolyard.

They assisted the Water Department in preparing land for the driven wells off Nahant Street and cleaning bog off Linden Street which was infested with mosquitoes.

At the Library, snow was removed, lawns kept free from dandelions and one man was kept in the children's room during the evening hours.

At the Infirmary, men cut wood, which was later delivered to recipients of welfare aid, and also worked on the farm.

QUARTERS

It has been found that the office of the Welfare Department is not of sufficient size. Congestion is very great, the staff is much hampered and the public cannot be given the service expected because of the lack of space.

OFFICE STAFF

On January 1, 1933, our staff consisted of one accountant and one clerk. Because of the increased number of welfare recipients, it was deemed advisable to have an investigator who gives all of her time in this capacity. It was a necessary and effective addition for the efficient administration of relief.

RED CROSS

Through Mr. C. N. Winship, Chairman of the Wakefield Branch of the Red Cross, we received one and one-half cars of flour which was stored in his mill and given out on Saturday mornings. Also, through Mr. Winship, we had a large allotment of Red Cross clothing and material which included men's and boys' pants, stockings, underwear, sheeting, outing flannel and dress materials.

The outing flannel and dress materials were taken by the Wakefield Special Relief Committee and distributed to all church organizations who made it into men's and boys' pajamas, women's night gowns and children's dresses. This Committee was in a position to present, on Easter Saturday, a new dress to every girl whose family was receiving aid from this department.

CIVILIAN CONSERVATION CAMPS

On May 18, 1933, this Board was authorized by Mr. Richard K. Conant, Commissioner of Public Welfare, to select thirty-one unmarried boys between the ages of 18 and 25 years, whose parents are citizens, to enroll in the Civilian Conservation Camps. Again on September 25, 1933, a second allotment of twenty boys were sent for a further six months' period. These

boys have served with credit to themselves and this community in the Camps to which they were assigned. All have been reported to be enjoying good health and are talking about re-enlisting at the end of their six months' period.

CIVIL WORKS ADMINISTRATION

On November 18, a notice was received by this Board of a meeting to be held at the State House on November 20, in reference to the unemployed. At this meeting we were advised of the anticipated relief to Welfare Departments throughout the country. We were instructed to present projects in order to place welfare recipients to work as speedily as possible.

Through the foresight of Selectmen Eugene J. Sullivan, and J. Theodore Whitney, it was possible to immediately present projects which were approved, and men were placed to work on November 22, 1933—two days after the meeting.

Mr. William C. Strong, Chairman of the Board of Public Welfare, was appointed Civil Works Administrator for Wakefield and through his untiring efforts, personal sacrifice, numerous calls at the C. W. A. headquarters in Boston, projects were continued until February 15, 1934.

TOWN INFIRMARY

The conduct and cost of the Town Infirmary is one of the incumbent affairs imposed upon the Board of Public Welfare. Here are gathered dependents not otherwise provided for, and of these the last two years have brought a considerable increase. It is the purpose and effort of the Board and those in charge to make it as nearly a real home as practical. Unfortunately there are some things that militate against complete and satisfactory results. If one thinks of 20 to 25 adults, whose misfortunes have put them in an institution and whose habits are fixed and their temperaments and dispositions are as varied as their numbers, it readily may be understood that it is not an easy and simple matter to combine them into an ideal, co-operative whole. There is always enough active, irresponsible, selfish human nature there to be a disturbing element; which imposes constant care and effort to keep in proper bounds. We say this that all who are interested may understand that it is no small problem of easy accomplishment to properly manage our Town Infirmary and care for an average of 23 inmates per month during the current year. We do not claim to have an ideal home; however, we do believe it is a good home where the inmates are well and properly cared for at a reasonable cost.

During the past year, great changes have taken place at the Town Farm. At the annual Town Meeting, it was voted, on report of the Special Town Investigating Committee, to discontinue all activities by July 1. In accordance with this vote, disposition of all livestock was effected as quickly as was practical.

Mr. and Mrs. Melvin W. Brown, the superintendent and matron, have continued in charge of the home, have given good service which is fully appreciated and for which we thank them.

APPRECIATION

We wish to extend our sincere thanks to Mr. C. N. Winship for his contributions, from time to time, of both adult and children's underwear; the Wakefield Special Relief Committee consisting of:

Mrs. Arthur B. Mason	Mrs. Dennis P. Hogan
Mrs. Homer Shellenberger	Mrs. Michael F. Callan
Mrs. Ernest L. Brown	Mrs. A. Francis Harrington

who have given so freely of their energy and time gratuitously to assist in the making and the distribution of clothing and other articles to welfare recipients.

We also wish to thank all private individuals and organizations who donated money, toys, and candy for our Christmas work.

CONCLUSION

In closing this report I wish to return my sincere thanks to the Honorable Board of Selectmen for the kind interest manifested by them in all matters pertaining to this department during the year.

To Mr. Eugene J. Sullivan, Committee on Police, my sincere thanks for his kindly advice during the year.

To each and every other person who has in any way assisted this department, you have my sincere thanks.

Respectfully submitted,

JAMES J. POLLARD,
Chief of Police.

Report of Chief of Fire Department

To the Honorable Board of Selectmen:—

Gentlemen:

I herewith submit my Annual Report of the Fire Department for the year ending December 31, 1933, with the total number of alarms, and losses on same as near as is possible to obtain.

APPARATUS

There are at the present time seven pieces of apparatus in this department.

One Triple Combination purchased from the Seagrave Co., and put in service July, 1924. This piece of apparatus is equipped with a 750-gallon centrifugal type pump; 1250 feet of 2½-inch hose; 80-gallon water tank; 200 feet of ¾-inch hose for booster line; 2 types of cellar pipes; ladders; stretcher; salvage covers; first-aid kit; and much other equipment necessary for an efficient unit.

One Double-bank type 75-foot Aerial Truck, purchased from the Seagrave Corp. and put in service December, 1928. Is equipped with water gun with 3-inch hose attached to aerial ladder; carries 379 feet of ladders; 80-gallon water tank; 200 feet of ¾-inch hose; booster pump; salvage covers; life net; 2 oxygen type masks; cannister type masks; oxygen tank for resuscitation work; Baker portable water gun; cellar pipes; and various other equipment necessary.

One Pierce-Arrow Squad Car put in service 1926. Equipped with 1100-gallon water gun mounted; 1050 feet of 1½-inch hose; adapters; nozzles; and various other equipment making this piece of apparatus efficient for the many uses called for.

One White Combination put in service 1920. Equipped with 1000 feet of 2½-inch hose; 250 feet of ¾-inch hose; 35-gallon chemical tank; salvage covers; ladders; 4 types of extinguishers and much other equipment.

One Pierce-Arrow Combination put in service May, 1927. This piece of apparatus was built for a reserve piece to replace such other pieces of apparatus of its type as may be out of service and has been used for such purpose a number of times since being placed in service. Equipped with 1000 feet of 2½-inch hose; 200 feet of ¾-inch hose; 52-gallon water tank; booster pump; Eastman deluge set; ladders and other equipment.

One Buick Chief's car purchased in 1929, and which has proven a valuable asset to the equipment of the department.

One 600-gallon Seagrave Triple Combination put in service July, 1929.

Is equipped with 1350 feet of 2½-inch hose; 200 feet of ¾-inch hose; 80-gallon water tank; cellar pipe; ladders and other equipment necessary for Fire Department work. Stationed in the Greenwood Station.

During the year the department has responded to 286 alarms, divided as follows: 72 box alarms, and 214 still alarms.

Estimate of property endangered	\$280,610.00
Loss on same	19,464.45
Insurance on same	320,500.00
Insurance paid on same	19,014.45
Transit value	4,750.00
Transit loss	62.00

CONCLUSION

In closing this report I wish to return my sincere thanks to the Honorable Board of Selectmen for the interest and co-operation manifested by them in all matters pertaining to this department.

To Mr. Asa A. Boothby for the hearty co-operation given by him as Committee on Fire Department during this past year.

To the various other Town Departments who have rendered valuable assistance through their hearty co-operation with this department during the past year.

My sincere thanks also are due to the officers and members of the Fire Department for the prompt and faithful discharge of their duties.

To the Department Physician, Dr. Curtis L. Sopher, for his valuable aid and interest to members of this department injured in the line of duty.

Respectfully submitted,

FRED D. GRAHAM,
Chief of Fire Department.

Report of Forest Warden

To the Honorable Board of Selectmen:

Gentlemen:

During the year there was a total of 115 woods and grass fires.

Respectfully submitted,

CHIEF FRED D. GRAHAM,

Forest Warden

Report of Inspector of Wires

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit my Annual Report as Inspector of Wires in compliance with the vote of the Town, 1922.

There was a total of 361 inspections made. All defects found were made to conform with the National Code.

Respectfully submitted,

CHIEF FRED D. GRAHAM,

Wire Inspector.

Report of Board of Health

The accompanying statistical table will show that Wakefield has escaped anything in the nature of an epidemic during the year 1933, and also will present a comparison of infectious and reportable diseases for the past four years:

	1930	1931	1932	1933
Tuberculosis	15	12	13	12
Diphtheria	9	2	2	5
Pneumonia	21	19	16	9
Poliomyelitis	2	1	0	2
Measles	17	215	8	64
Mumps	12	4	3	16
Chickenpox	46	20	27	10
Whooping-cough	36	17	5	20
Septic Sore Throat	1	0	1	4
Scarlet Fever	23	59	42	11
Typhoid Fever	1	7	0	0
Influenza	0	2	1	0
German Measles	1	3	0	0
Cerebral Spinal Meningitis	0	0	2	0
Tetanus	0	0	1	0
Total	183	363	122	153

Miss Russell the health nurse made the following visits during the year 1933:

Scarlet Fever	46
Mumps	3
Veneral Diseases	16
Poliomyelitis	7
Diphtheria	24
Whooping Cough	4
Measles	82
Tuberculosis	402

Miss Russell has also during the year made the following trips to different sanatoriums with patients:

- 18 trips to Middlesex County Sanitarium at Waltham.
- 19 trips to North Reading State Sanatorium at North Reading
- 1 trip to Lakeville State Sanatorium at Middleboro.
- 2 trips to Rutland State Sanatorium at Rutland.

The majority of these patients were ex-sanatorium patients taken back for re-examination, X-ray and treatment. Five were admitted for hospitalization.

The 1933 statistics show a larger number of reported Diphtheria cases than we had either of the two preceding years; however it is interesting to note that there was not a single case of Diphtheria reported among children who had previously been immunized.

During the year Dr. Charles E. Montague, who for more than fourteen years had served as a member, and for the past four years had been its chairman, resigned from the Board, and Dr. Carl E. Allison was elected, at a conference of the Board of Health and the Selectmen, to fill out the term until the next election.

During Dr. Montague's services on the Board, many forward steps have been taken. To the personal interest and work of Dr. Montague what has been accomplished in the way of immunization for diphtheria is due. This has been accomplished at no cost to the town except for the necessary equipment which was provided by this Board. The serum has been provided by the state.

The milk situation in Wakefield now is better than ever before. All of the herds in town have been tuberculin-tested by the State Department of Animal Industry, and all reactors have been eliminated. The milk supply of the town now either comes from tuberculin-tested herds or the milk has been pasteurized.

In accordance with the vote of the March town meeting, the Board of Health in June, entered into a three years' contract, beginning July 1, 1933, with Mr. Henry E. Caswell, a resident of Wakefield, for the collection of garbage at a cost of \$3,300.00 per year, the garbage to be taken from the town for disposal. To date this collection has been very satisfactory with but few complaints except during the extremely cold weather in December. It may be noted that garbage collection in Wakefield is low in cost, being about 20 cents each per inhabitant or about \$1.00 per family for each year.

The Board of Health continues of the opinion that the keeping of swine within the town limits is becoming more and more a nuisance. The Board may be expected to be more strict in the matter of granting permits for the keeping of swine wherever any opposition develops.

During the year the care of Dumps has been accomplished by the use of labor supplied either by the Welfare Department or under the C. W. A. control. The supervision has been provided by the agent of this Board. This method has kept the three dumps under Board of Health control in a very presentable condition.

The Board returns to the Town Treasurer as unexpended balances; Departmental Expenses, \$804.46; Garbage, \$462.92; Dumps, \$4.32.

Respectfully submitted,

WESLEY S. GOODWIN,
CARL E. ALLISON, M. D.
CHARLES W. DeWOLF, M. D.

Report of Health Officer

To the Board of Health:

I herewith submit my report for the year ending December 31, 1933.

The work of this department varies little from one year to another. There are the usual complaints which have to be investigated. I have investigated 203 complaints, none of which were very serious.

I have made nine trips to the Middlesex County Sanatorium with patients, one to Haynes Memorial Hospital in Brighton, and one to Malden Contagious Hospital.

I have also supervised the care of the Dumps this year, the work being done by Welfare Workers.

Respectfully submitted,

DAVID TAGGART

Report of Plumbing Inspector

To the Board of Health:

I herewith submit my report for the year ending December 31, 1933.

Number of permits granted	67
Number of fixtures installed	224

Divided as follows:

Bath tubs	29
Lavatories	42
Closets	52
Sinks	45
Boilers	24
Wash trays	32

I have made 166 inspections.

DAVID TAGGART

Tuberculosis Dispensary Report

The annual report of the Tuberculosis Dispensary is herewith respectfully submitted.

The Tuberculosis Dispensary is open the first and third Friday evenings in the month from 8 to 9, and the second and fourth Tuesday afternoons from 3.30 to 4.30.

We have examined at the dispensary during the year, patients discharged from sanatoriums, contact cases, suspicious cases of tuberculosis, and a number of underweight children. One hundred and eleven examinations were made.

A certain amount of follow up work has been done for these patients. Twenty-five adults were taken to No. Reading and Waltham sanatoriums for further examination of chest and to be X-rayed, and thirty children were taken to No. Reading sanatorium for chest examination, X-rays and Von Pirquet tests.

There are two types of tuberculosis, the childhood type, and the adult type. Tuberculosis is generally acquired during our childhood days. If the infection is not too great and the general resistance of the child is

good, this may pass unnoticed. There may not be any symptoms whatsoever, although we may easily find out whether or not the child has been infected. This is ascertained by the skin test, known as the Von Pirquet test, which shows us whether or not there are any living germs in the system, while the X-ray is also of help. We aim to have children who are contact cases have this Von Pirquet test, and also X-rayed.

We have also provided transportation for several patients taking Pneumo-thorax treatment. This treatment consists mainly of putting the diseased lung at rest by compressing it with air, a method technically known as artificial pneumo-thorax. This method is mainly applicable when one lung is in good condition, when both lungs show active disease the result is not so good. Many patients who would have been given up as absolutely hopeless ten to fifteen years ago, are now the type who are being benefitted by the newer forms of treatment.

Report of Inspector of Milk and Food

To the Board of Health, Wakefield, Mass.

Gentlemen:

I hereby submit my annual report as Inspector of Milk and Food for the year ending December 31, 1933.

As you no doubt know the year just passed has been one of particular activities and marked changes in the administration of the Massachusetts Dairy Industry.

Under the operation of the new State Milk Regulation Board the work of this office has increased to a considerable degree, requiring much more detail of record, closer supervision of local plants and a constant co-operation with the State Departments of Health and Agriculture.

The local dairymen have shown a splendid spirit of compliance with new legislation and by April 1st, 1934, all will be required to hold a permit to continue in business.

I cannot emphasize too strongly at this time the excellence in quality of Wakefield raised and marketed milk. When delivered at the door it is generally two days fresher than outside milk and thereby much richer in nutrition. I would recommend, as a health measure, its universal con-

sumption by the townspeople, as to my mind it is well worth the slight advance in price to cover the cost of delivery.

In a comprehensive survey of local dairy conditions one is impressed by the thousands of dollars invested thereby in taxable property, as well as being the means of employment and livelihood to approximately 100 persons.

There have been slightly fewer samples of milk tested during this year than last. The usual high quality has been maintained and in very few instances did tests fall below standard requirements.

In regard to the local food situation there is nothing of an unusual nature to report. I have followed up the customary Saturday inspections and throughout the year have found very few infractions of the Regulations. Canned goods and cold storage food have come in for special attention. Refrigeration has been carefully observed during the hot summer months. All complaints have been adjusted satisfactorily between the various parties concerned.

The detail of records is as follows:

Licenses issued			
Milk, Retail	88 @	\$.50	\$44.00
Milk, Wholesale	25 @	.50	12.50
Milk, Pasteurization	3 @	10.00	30.00
Oleomargarine	9 @	.50	4.50
Ice Cream	4 @	1.00	4.00
Total			\$95.00

Report of Town Counsel

Wakefield, Mass., Jan. 1, 1934

To the Honorable Board of Selectmen:

As Town Counsel for the year 1933, I make the following report.

Two tort actions against the town were tried together, finding for town, Melville cases.

One tort action against town, finding for plaintiff \$1,565.98, Nellie T. Mack, plaintiff.

These cases were heard in Middlesex Superior Court without jury, the Mack case arose from plaintiff falling on sidewalk on Albion Street near the Catholic Church.

One case under zoning law was brought against the building inspector who I defended, to enforce restriction of removing sand on premises of owner, and was brought to compel by writ of Mandamus in Supreme Court the inspector to act, Writ denied.

Several small cases in contract for various departments of the town have been brought, some settled, others pending, the largest for Welfare Dept., resulted in a finding in District Court, Malden for \$265, by agreement.

Some sixteen cases in tort (accident cases) are pending against the town, but as the same accident involved several persons in some of the cases there are in fact about nine cases to try when reached.

Two cases are pending for assessment of damages for land or easements taken by or on behalf of the town.

One petition for an abatement of a sewer assessment is pending.

The town's case against the New England Telephone and Telegraph Co. for damage to police department's car is still pending with good chances of an immediate settlement.

Many claims against the town have been investigated, but few found which warranted settlements.

Claims have been prepared for departments to prove in Bankruptcy and assignments. Various departments have been given opinions on pending matters, and a great deal of time has been given to aid in matters arising from the depression, especially with respect to public work aided by the United States.

I have attended hearings before the Industrial Accident Board when town compensation cases were involved.

Respectfully submitted,

MAYNARD E. S. CLEMONS

Report of Supt. of Moth Dept.

Wakefield, Mass., January 1, 1934.

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit my report as Superintendent of the Moth Department for the year ending December 31, 1933.

This year the Gypsy, Brown Tail and Satin Moths are about the same as last year but the Elm Leaf Beetle and the Fall Web Worm are getting worse.

We have been obliged to cut down 25 shade trees which have died from various causes. We planted 100 young trees along streets where they were needed most. These trees were grown in our own nursery at Broadway.

We spent \$1,338.96 for moth work, \$1,915.65 for spraying, \$2,108.80 for trimming and cutting down trees, \$938.73 for cutting brush and \$426.68 for truck, tractor and spraying machines.

For other expenditures and appropriations of this Department see Town Accountant's Report.

Respectfully yours,

JOHN A. LANDRY,
Supt. of Moth Department.

Respectfully submitted,

LEANDER B. PORTER,

Compensation Agent.

Report of Town Planning Board

To the Honorable Board of Selectmen,
Town Hall, Wakefield, Mass.
Gentlemen:

The Town Planning Board submits to you its annual report for the year ending December 31, 1933.

In connection with the annexation of a part of the Town of Saugus lying east of Greenwood, the Town Planning Board explored the area in question, prepared a map showing its shape and relation to Wakefield, interviewed all those persons directly interested, conferred with state and county officials, and recommended favorable action by the town. This action was taken.

It was proposed by the Wakefield Expansion Board that the By-Pass Highway, advocated last year by the Planning Boards of Wakefield, Stoneham and Reading, be built as a part of the Public Works Program of the State or Federal Government.

The Planning Board was represented at all conferences and hearings on this project, both locally and in Boston. While favorable action has not yet been taken, the project is yet a very important one and should not be entirely abandoned.

During the year a controversy arose regarding the removal of loam, sand and gravel, as business in a residential district. The matter was taken to the courts and the Planning Board became involved. It seems that this form of private enterprise in residential districts is of a detrimental nature and is not adequately provided for in the Zoning Law. The Planning Board is therefore preparing an amendment which will require that the removal of loam, sand, or gravel, in a residential district not incidental to building construction, be forbidden unless, after hearings, it is shown to be not detrimental and a permit is issued permitting the action.

While in some towns the Planning Boards have been conspicuous in the Government's C. W. A. program, the Wakefield Planning Board has kept in close touch with the work but has confined its activities to informal conferences with the Selectmen and others, feeling that more progress and less confusion would result from this policy.

During the past year the State Legislation has made a sweeping revision of its zoning laws. These changes will affect the town law and the Planning Board will, in the near future, re-study the town law and offer such amendments for town action as are necessary to make it conform with the new state requirements. At the same time recommendations will be made for revision of the Rules of the Board of Survey.

Respectfully yours,

E. M. BRIDGE, Chairman.

Report of Bath House Instructor

Wakefield Park Board, Wakefield, Mass.:

My report submitted at this time is not as pleasant as last year as we had the misfortune of having one fatal accident.

A young girl 12 years old was seen and warned about carrying her younger sister, 8 years old, into deep water. They later started for the raft and the life guard on the raft heard the younger girl scream. He swam to their aid and while assisting the younger girl into a boat the older girl sank without a struggle. Medical Examiner Perley's report was one of heart failure as little water was found in lungs.

Due to an unusually cool summer the attendance was kept down.

The following statistics will give you some idea as to what took place.

The Bath House was open 78 days from 9 A.M. to 8 P.M., daily and on Sundays from 2 to 6 P.M.

Total number in attendance	40,800
Average daily attendance	600
Maximum attendance	2,800
Number of minor injuries	110
Number of persons needing help (beyond their depths)	31
Number of suspensions	6
Number of serious accidents	1

I recommend that a good boat with chain and anchor be purchased.

Yours truly,

A. G. ABBOTT,
Instructor

Sept. 6, 1933.

CHAPTER 90 WORK

We were able this year to secure an allotment from the State and County to assist the Town in resurfacing:

Main Street—From Hart's Hill to the B. & M. R. R. Crossing, a distance of 2,150 feet.

Lowell Street—From the Reading line to North Main Street, a distance of 1,800 feet.

Main Street—Lakeside, the shoulders on the west side, a distance of 1,016 feet.

The State supervised this work with the Town as a contractor. The following table shows that the work was done at an actual cost less than was allowed by the State, who figured it on a unit cost basis.

Appropriation by Town (March)	\$ 7,800.00
Amount expended	7,500.40
Balance	<hr/> \$ 299.60
Allotment from State (Reserved by State for 65 days, \$1,469.38)	\$ 11,347.50

Amount expended:

Main Street

(Hart's Hill to B. & M. R.R.) \$ 13,776.36

Lowell Street

Reading line to N. Main St.) 6,475.79

Main Street (Lakeside shoulders) 1,153.77

\$ 21,405.92

\$ 1,288.18

Total Balance

\$ 1,587.78

A survey and plan was made of the three triangular plots at the intersection of Prospect and Elm Streets. Through the co-operation and assistance of the Garden Club, we were able to make a start on the beautification of this area. Granite edging was constructed around the upper or westerly triangular plot, and all three plots were graded and seeded. Men from the Welfare Department did the work.

The Government through the Civil Works Administration approved eight projects laid out and supervised by the Highway Department. These projects represent an expenditure by the Government of approximately \$66,000.00, and \$5,500.00 by the Town. There are five drainage projects, one ledge removal, one street widening, and one playground development.

Respectfully submitted,

HARRY H. DENNING,

Superintendent of Streets.

The analysis of the filtered water indicated that the filters are operating efficiently as in previous years. During the process of scraping, it was necessary to remove about six hundred cubic yards of sand which will have to be replaced this year.

While resanding these filters, it will be necessary to provide an additional supply of water. The Board strongly recommends that permananet pumping equipment be purchased and installed at the wells for this purpose.

Under a vote of the Town at a meeting held on September 21, the Department was authorized to borrow \$70,000.00 from the U. S. Government, contingent upon a grant of \$30,000.00 from the same source, this money to be used in a P. W. A. project of relaying old cement water mains. Upon receipt of a telegram stating that the project had been approved and the money allocated, the material was purchased and the project started. The work was continued until December 20, when due to the cold weather and frost in the ground, the labor cost was approximately forty per cent more, and it was not deemed economically feasible to continue.

It will be necessary during the coming year to examine and repair the cages on the pump suction.

Lake Quannapowitt has received its usual care and attention, copper sulphate having been applied on August 1, 1933. We recommend that this treatment be continued.

The Superintendent's report which follows gives in more detail information as to construction, improvements and so forth, which will be of interest to the Town.

WILLIAM B. STANTIAL,
SIDNEY F. ADAMS,
AARON T. BUTLER,
Commissioners.

PERMANENT IMPROVEMENTS

Both standpipes were emptied, thoroughly cleaned, and received two coats of red lead and oil on the inside. A concrete floor, four inches thick also was installed in standpipe number two, located on Hart's Hill.

New windows and frames were installed to replace old ones where necessary, and also new gutters put in the dwelling house at the Pumping Station.

A new Dodge coupe was purchased during the year.

WATER SUPPLY

Our source of water supply, Crystal Lake, continues to be of good quality as usual, and the elevation of the lake on December 31 was 21.5 inches below high water mark.

The filter plant, which has been in operation since February 8, 1928, is rendering excellent service, but during that time approximately nine inches of sand has been removed in the process of scraping. The same amount will have to be replaced during the coming year.

LOW LEVEL SEWER SYSTEM

The Low Level Sewer System and Pumping Station, installed in 1926, are still giving excellent service.

SEWER MAINTENANCE

The entire system has received two inspections, and also has been thoroughly brushed and cleaned during the year. However, it will be necessary during the coming year to replace a considerable number of manhole covers and frames which have become badly worn due to the very heavy traffic of today.

SEWER CONNECTIONS

Applications for house connections to date	1729
Number of connections made	1619
Number of connections made during year	25
Number of connections waiting	0

SEWER CONSTRUCTION

No sewer extension or construction was done during the year 1933.

In conclusion, I wish to extend my sincere thanks to each and every member of the Department for his co-operation in all emergencies during the year.

I also extend my thanks to the heads and members of the various Town Departments for their support and co-operation during the year.

Respectfully submitted,

MORRISON MERRILL,

Superintendent.

Report of the Municipal Light Board

To the Citizens of the Town of Wakefield:

We submit for your consideration the fortieth annual report of the Municipal Light Board, covering the year ending December 31, 1933.

The results from the operation of the Department as a whole are quite satisfactory, after taking into consideration the general business conditions during the past year. The total profit after deducting debt retirements for 1933 were \$22,276.57 as against \$31,795.55 for 1932.

The decrease in our net profit is due almost entirely, to a loss in gas sales. In 1932 our gas sales were \$129,316 and in 1933, \$116,747 a difference of about 9.7%. We are not however, any worse off in this respect than the privately owned companies of New England; the American Gas Association reports a decrease in revenue of 8.7%.

Our electric sales show a slight increase over 1932, due to a greater consumption by domestic users and to a slight gain in industrial activity. The expense of the electric, department increased somewhat, so that the net profit, before debt retirements was \$27,471 as compared to \$30,472 for 1932.

We are again asking the Town to appropriate \$18,000 for street lighting. In 1933 the Town voted to take this same amount from the balance of our operating fund, so that it did not cost the Town anything for this service.

In addition to the \$18,000 turned over to the Town, we have furnished materials and service to the town to the extent of \$5,822.80.

The balance of our Operation Fund is \$16,526.57 as compared to \$31,687.59 for 1932. This decrease is due to decreased income and slowness in the collection of outstanding account.

A new rate schedule for commercial power became effective January 1, 1933. This was the only change made in our rates during the year.

The report of the Manager showing the financial condition of the plant, as of December 31, 1933 and its operations of the year, are included in this report.

The books of the Department are being audited by C. O. Huntington and Company, Certified Public Accountants.

Respectfully submitted,

MARCUS BEEBE, 2nd, Chairman,
A. FRANCIS HARRINGTON, Secretary,
CURTIS L. SOPHER,

Board of Commissioners,
Municipal Light Department

January 16, 1934

To the Board of Light Commissioners,

Town of Wakefield, Massachusetts.

Gentlemen:

I submit herewith my annual report of this Department for the year ending December 31, 1933.

GAS DEPARTMENT

The net sales of this section were \$116,747.78, the operating expense \$108,186.43 and a net operating income of \$8,561.35 for 1933; in 1932 the net income was \$13,823.18.

ELECTRIC DEPARTMENT

The net sales of this section were \$180,378.29; the operating expense \$149,341.74 with a net operating income of \$31,036.55 for 1933; in 1932 this figure was \$30,472.37.

BONDED DEBT

This item has been reduced from \$111,500.00 to \$99,000.00.

PROPERTY AND EQUIPMENT

Plant investments and general equipment have decreased \$11,881.44, this is due to excess of depreciation over construction.

With the decision of the Selectmen to relay with concrete, the sidewalk on the East side of Main Street between Mechanic Street and Crescent Street, this department laid a new 6 inch steel gas main in the sidewalk location and connected all services to this new main, abandoning the old 6 inch cast iron main in the traveled way. The same was done with the West side of Main Street from Albion Street south to the existing concrete sidewalk. This enabled the department to do away with long services crossing Main Street, and the old main laid fifty or sixty years ago, that have been a source of annoyance, the deterioration of the line causing leaks.

The improvement of Lowell Street from Main Street to the Reading line with State and County aid, made the extension of the present main to Line Road advisable before construction of the Road surface.

Chestnut Street from Park Avenue to Prospect Street old cast iron 4" main was replaced by 4" steel pipe. This old main was broken many times in the past by heavy traffic and blasting. The usable lengths of old main were salvaged and used to replace the 1½" pipe in Auburn Street.

A short extension of main was made in Lassell Street. The mains on

West Water Street, North Avenue and Main Street south of Mechanic Street have been stripped and examined for leaks. The old line in Water Street from Main Street to the railroad crossing has been abandoned and connections made to the existing 4" steel main that was a part of the old high pressure system now discarded.

The process of resurfacing Main Street from Hart's Hill to the railroad crossing warranted the abandonment of the old 3" gas main between Bennett Street and Charles Street, and connecting all services and the mains in Charles, Summer and Franklin Streets with the 6" line which is continuous to Greenwood.

A supplementary three phase aerial line has been placed on poles in Foundry Street to Broadway as a standby unit in the power line to the Water Department Pumping Station and Broadway.

The underground lines of the electric system have been extended somewhat, due to the Main Street sidewalk construction, they were extended from the existing manhole near the Universalist Church to Crescent Street across the lower end of the Common to existing ducts at Lafayette Street and southerly on Common and Main Streets to Avon Street; so that, when/if, the underground system is extended through Yale Avenue and Avon Street from North Avenue a circuit will be available.

I again wish to thank the Commissioners, the general public and the employees of this department for their continued support and loyalty.

I cannot close this report without some reference to the death of Roger B. Fish, an operator at the substation. He was one of the original men chosen for training at the Edison Station in Woburn, before the operation of the station here. Mr. Fish was well liked by the men of this Department and we all regret his passing.

Yours respectfully,

SAMUEL H. BROOKS,

Manager

Fire Alarm and Police Signal Systems

January 2, 1934

To the Municipal Light Commissioners,
Town of Wakefield, Massachusetts

Gentlemen:

Since the assumption of the operation and maintenance of these systems last year, no additions or extensions have been made. The traffic signals have been in constant operation with minor repairs, the same applying to the Fire Alarm and Police signals.

The lines are in first class order, batteries and charging devices under constant supervision. A receiving set has been installed in the patrol car of the Police Department and it is recommended that three (3) additional Fire Alarm boxes and one Police signal box be installed in the near future.

Respectfully submitted,

SAMUEL H. BROOKS,
Manager Municipal Light Dept.

* Temporary

The Trustees of the Lucius Beebe Memorial Library herewith submit the seventy-eighth annual report for the year 1933.

Although faced with the difficult problem of running an increased business with a decreased budget, the Trustees feel a real pleasure in being able to report another year of progress. To keep the high level of service which the Wakefield public expects, eternal vigilance has been necessary and without the loyal co-operation of Miss Carleton and her able staff this report would tell a very different story. To each one of them the Trustees wish to express appreciation.

The stimulation which comes from increased service has been felt in every department. The double session at the High School with the consequent closing of the Charles H. Howe Memorial Library, greatly increased the use of the Reference Room by the High School pupils. Unemployment, too, has brought many readers to the Library. With every seat filled, sometimes it has been difficult to maintain the quiet desirable in a room designed for study and research.

That the closing of the High School Library brought problems to another town department as well as to the Library was shown when the School Department requested the privilege of sending a representative to the October meeting of the Trustees. Mrs. W. S. Ripley presented the difficulties felt at the High School because of the lack of Library facilities there, and asked that a member of the staff of The Lucius Beebe Memorial Library be loaned to the High School for three hours each school day. After weighing the matter at considerable length, the Trustees agreed to try the plan till January and from October 9 through the rest of the school term, Miss Louise Sheldon took charge of the High School Library each school day. Because Miss Sheldon has catalogued each new book added to the Beebe Library for several years and thus knows its resources, she was able to be of great service in correlating the two libraries.

A new plan has been tried in regard to overdue books. After the second overdue card has been sent without result, Mr. Mitchell, the janitor, is sent to collect both book and fine. About one trip a month has been made, and more books have been secured than by the previous method.

The time is fast approaching when additional stack room will be necessary. Until normal times return, however, the Trustees do not feel justified in asking for the expenditure that would be necessary, and have been using every device that can be thought of to increase space. Bound magazines have been placed on top of the shelves in the alcove of the Newspaper Room; magazines for circulation will be kept on file in the Newspaper Room instead of on open shelves; and the space thus gained in the stacks will help the congestion quite materially. It is hoped also that the magazines will be kept in better condition. Drawers in the Reference Room have been changed to shelves with sliding doors and a considerable gain in space made available there.

On May 30, the whole community was shocked by the tragic death of Mr. J. Oliver Beebe. Mr. Beebe had been a member of the Board since 1920, and since 1924 had served as chairman. The following appreciation was sent by the Trustees to the members of his family, to the Daily Item, and was spread upon the records:

"The Trustees of the The Lucius Beebe Memorial Library wish to express to the family and friends of Mr. J. Oliver Beebe their sincere appreciation of his services as a member of the board.

"Coming to the board as one of the youngest members who ever had served, he brought from the first an enthusiastic concentration on all matters pertaining to the Library. As the years went by and his business cares increased, no lessening of his interest in Library affairs was evident.

"He was notably faithful in his attendance, serving first as a member and then for nine years as chairman of the Board, bringing always to the meetings a stimulating buoyancy. His grasp of all practical matters was remarkable in its swiftness and acumen.

"In every way he showed a fairness of spirit and a desire to perpetuate the finest traditions of the Beebe family."

A few weeks later in a joint session of Selectmen and Trustees, Mr. Albert W. Rockwood was elected to fill out the year of Mr. Beebe's service.

Almost at the same hour of this meeting another vacancy on the Board occurred through the death of Mr. Edson W. White. This second loss in so short a time was felt keenly by every member of the Board. The following appreciation was sent to Mrs. White, to the Daily Item, and was spread upon the records.

"The Trustees of The Lucius Beebe Memorial Library wish to express to the family and friends of Mr. Edson W. White their sincere appreciation of his services as a member of the Board.

"The genial, whimsical humor, the staunchness, the unbiased judgment which he brought to Library problems were qualities which endeared him to those with whom he was associated. Mr. White's service to the town lasting through a period of thirty-three years, demonstrates a life of devotion to the best interests of his community."

In October at a joint session of Trustees and Selectmen, Mr. Walter C. Hickey was elected to fill out the year of Mr. White's term.

In September the Board received a letter from Mr. and Mrs. Junius Beebe announcing a gift of \$5000 to establish a Library Fund in the name of their son Oliver. In accordance with a wish previously expressed by Mr. Oliver Beebe, the income of the Fund is to be used for general purposes peculiar to the Library but for which the town might be reluctant to pay.

Mr. and Mrs. Beebe also have given a fine picture of their son, which has been hung in the Trustees' Room, and at Christmas they gave the beautiful decorations of the Library in his memory.

There have been other gifts of pictures, flowers, books and magazines from generous friends. Mr. Harris Dolbeare and Mr. Gardner Campbell have continued to give generously of the space in the Daily Item. The column, "Your Public Library," each week, is watched for by many patrons who are grateful to the Item, too, as are also the Staff and Trustees. To all these friends, to Mr. Warner V. Taylor, formerly of Wakefield, who gave us Fortune Magazine for 1933, and to the Mothers' Club for their annual gift, the Trustees wish to extend their thanks.

Because within two years four new members have come to the Board, the Trustees gathered at the Greenwood Branch Library before the December meeting in order that both old and new members might see the improvements brought about through the interest of Miss Clara Wilson who is in charge of the Branch. The rooms are inviting and homelike and are taking a real place in the community life. Decorations suitable to the various seasons are arranged and there is always some scene in the glass case of interest to both children and grow-ups. In December it was a lively scene from the "Birds' Christmas Carol."

In November the Selectmen asked for co-operation from all departments in planning projects for C. W. A. workers. For a long time the general catalogues have needed revision and four women assistants were assigned for this work. Cleaning and painting outside and in also were undertaken. The Trustees realize that the detailed supervision of this work, particularly the recataloging, has thrown much additional work and responsibility on Miss Carleton just at the close of the year when of necessity her program is a heavy one. Her interest and willingness, however, have been unfailing, no matter how trying the situation.

The circulation for the year 1933 is as follows:

	Adult	Juvenile	Total
Main Library	135,897	48,126	184,023
Greenwood Branch	34,464	23,861	58,325
School			7,893
	Total		250,241

The picture circulation was 4,851.

Although within ten years the circulation has more than doubled, there is an increase of 6,428 this year.

For the year 1934, the Trustees recommend for the appropriation \$17,500.

FLORENCE L. BEAN,

Secretary of the Trustees.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Wakefield:

The year 1933 brought little improvement in the general financial condition of the town and the problems which the School Department faced in 1932 were accentuated. However, the School Committee has endeavored at all times to co-operate with the Town Finance Committee, has accepted all cuts in the budget, and has lived within its appropriation. The committee asked for \$263,000.00 for 1933, which sum in itself was a reduction of \$47,000.00 from the amount originally appropriated for 1932. The Finance Committee reduced this to \$256,000.00.

To meet this cut of \$7,000.00, the department found it necessary in addition to practising ordinary economies, to:

Suspend the domestic arts and printing departments in the High School.

Limit manual training to the pupils of the High School and to boys electing the Industrial Arts Course.

Increase the size of classes in the Eighth Grade afternoon session, thus releasing one teacher.

Give the drawing supervisor for the grades leave of absence.

Give the High School librarian leave of absence.

Increase the size of classes in the Lincoln School and the number of classes per teacher in the High School.

Save the salaries of two teachers by not electing successors to one, in the Lincoln School, who retired, and another in the Franklin School, who resigned to be married.

Close the Hamilton building; transfer and combine the special classes with similar classes at the Franklin building, thus saving the salary of one teacher, who was released and general operating expenses, including the cost of a janitor.

Buy coal only for the closing months of 1933, instead of for the full school year.

Postpone purchase of books.

Transfer the Hurd School seventh grade pupils to the Lincoln building, thus making it possible to close one room in the Hurd building and transfer one teacher to the Franklin building.

The fact that rigid economy was practiced in the general conduct of the schools, and that there was but one repair job that might be termed emergency and expensive, made it possible for the Committee to purchase

the remainder of the winter's supply of coal and much-needed books for the high and grade schools. This, it should be noted, effected an equivalent reduction in the budget for 1934.

The Committee asks for \$250,000.00 for 1934, which sum is \$6,000.00 less than the appropriation for 1933, thus giving evidence of continued co-operation with the Finance Committee in its endeavor to keep the total of town appropriations at a figure which will prevent an increase in the tax rate.

Economies which have resulted in the discontinuance of Domestic Arts for girls and printing for boys in the High School, partial suspension of the functions of the High School library, and limitation of manual training not only to the High School, but to boys in the Industrial Arts Course, naturally have given rise to the question whether or not the withdrawal of these educational offerings is a loss to the pupils. Public opinion is divided on the subject. One group believes that instruction in cooking and sewing for girls and handcraft for boys are vital concomitants of a modern educational system. Another group believes that these subjects, or at least cooking and sewing for girls, are functions of the home. Your School Committee believes that these are questions demanding thought and attention which they will soon receive, but the fact remains that the academic courses are all the town can support under existing conditions of finance and accommodations. It should be also borne in mind that high per capita cost and relatively small enrollment of pupils in these courses focused attention on them when further economy became necessary. Our Superintendent and our High School and other principals, are firm in their belief that such courses are essential to hold interest in schooling among those pupils who are not gifted mentally for average or high grade work in academic subjects. These problems and recommendations will be given serious study before the next Fall term begins.

Because of the recognized importance of penmanship, and because of assurance of the value of supervision, the Committee rescinded earlier action and reappointed the supervisor of penmanship. With the exception of this and the supervisor of music, all other special supervision, including drawing in the grades, has been eliminated in the search for economies.

For the sake of brevity, other acts or votes of the School Committee and facts of public interest occurring in 1933, are summarized as follows:

Tuition cost in High School reduced to \$101.00, a reduction of about \$15.00; and in grade schools to \$62.65. This applies to pupils living outside town borders but educated here. Annexation of a small section of Saugus just east of the Greenwood district will produce a loss in revenue to the town on about thirteen pupils at \$62.65 per pupil, formerly paid to Wakefield by Saugus.

The per capita cost of education in Wakefield is \$89.26 for all pupils, including High School, compared with an average of \$99.16 for the sixty

towns and cities of Massachusetts having 5,000 or more population. The cost of education in Wakefield has been reduced more than twenty per cent since 1931.

Although in sympathy with the national movement to increase or restore wages, the Committee has fixed its budget request for 1934 on the basis of continuing the ten-percent salary cut voted by the town on July 1, 1932, knowing that the Town Finance Committee considers this necessary and that the policy will be followed by all other town boards.

Steps have been taken to prevent mutilation of books in the school and town libraries by requiring that teachers shall not give essay assignments calling for illustration, except that original drawings, tracings or newspaper clippings will be permitted.

Fees for use of the High and other school auditoriums have been adjusted upward, to make the revenue more in keeping with the expense of heat, light and depreciation.

The No-School signal has been abolished, except for grades 1 to 7 inclusive.

This is the third winter season in which the evening school has not been operated, with a consequent saving in school cost.

The intelligence test system continues suspended. Inasmuch as the former supervisor is now otherwise engaged, pupils on the age borderline no longer can be tested for admission to the first grade.

Telephones discontinued in the Hurd and West Ward schools have been restored as of January 1, 1934, because the Committee believes that their value in emergencies and in establishing contact with the administrative offices outweighs the relatively small cost.

The principal of the High School and the masters of the eighth grades, have been given authority to consult with parents and pupils and determine whether pupils entering the high school are competent to pursue the college course. This procedure has resulted in a marked reduction in the number of failures in Latin in the freshman class.

Changes have been made in the system of marking pupils for graduation honors in the High School which place emphasis on quality rather than quantity in accomplishment, and will serve to eliminate so-called "padding" of courses to obtain credits.

Gifts of statuary and pictures made by earlier classes to the old High School have been cleaned, re-framed or restored, and will be placed in suitable locations in the present High School building.

It has been voted to require non-resident parents whose children attend Wakefield schools to pay all tuition bills of the previous school year

by September 1. This does not apply to tuition paid by other municipalities or the State.

The Committee has taken a formal stand against the use of Walton Field at the High School for Sunday sports of any kind.

A more advantageous contract has been made for care of shrubbery on school grounds.

The Committee has co-operated with the Selectmen and Highway Department in plans to re-locate Wakefield Brook; and in connection with this town drainage project, to effect a better drainage system for the lower end of the athletic field.

A closer advisory contact with the High School Athletic Association has been established through the appointment of two members of the School Committee to the Wakefield High School Athletic Council, and they are members of the Wakefield High School Athletic Association Board of Directors.

That they may be nearer their duties and in a position to give after-school help to pupils needing it, the Committee has requested all teachers, to reside in Wakefield during the school year. Exceptions have been made in cases in which non-resident teachers live with parents or are wholly or partially maintaining homes with relatives, and in which compliance with this request would work hardship or financial loss.

Steps have been taken to bring about the transfer from the now-inactive High School Parent Teacher Association to the custody of the School Committee the Charles H. Howe Memorial Library Fund and the Elizabeth F. Ingram Scholarship Fund.

The department gratefully acknowledges the co-operation of the Beebe Memorial Library Trustees in loaning a librarian, Miss Louise Sheldon, for part time operation of the High School library during part of the Fall term until December 31, 1933, and recognizes the able service given by Miss Sheldon. As this arrangement could not be continued after January 1, for financial reasons, one of the cadet teachers is now in charge.

Military drill continues suspended, as the double session plans make it impossible for a worthwhile number of boys to participate.

For the second season the School Department has co-operated with the Wakefield Recreation Commission by granting free use of the High School gymnasium, two evenings a week, for the women's gym classes. It has co-operated with the relief authorities in loaning the school sewing machines for the Civil Works Service sewing project for unemployed women.

The School Committee has made a practice of confining its purchases to local business houses when they had the goods needed, and of inviting bids from the local firms when they had the service to offer.

The long-standing failure of the Warren School heating system to properly heat the corridors is still a problem. Plans have been prepared, but estimated cost of the labor and supplies has been beyond the means of the department during this period of enforced economy.

Every summer in recent years it has been necessary to replace parts of the cement walks and platforms around the high school, because of faulty construction and insufficient drainage under the cement work when they were laid eleven years ago.

General repairs in 1933 to school property were not large or expensive.

The exterior of the old West Ward school was painted and the interior has been given some attention. Some painting was done at Greenwood and, later in the year, a Civil Works Administration project in connection with the Federal relief work enabled the department to have six more class rooms and the auditorium painted. Paint for this project was supplied by the School Department. Sufficient paint for an extensive interior painting project in the High School was purchased at the same time, to take advantage of a favorable price, and is being held in storage, pending an extension of the C. W. A. projects or the Committee's financial ability to have the work done by private contract. The only major repair job was that at the Woodville School, where roof leakage forced an expenditure of slightly less than \$800.00. An additional expenditure will be necessary for caulking windows and doors, for which the contract has been awarded, and fairly heavy expense for repointing brick work and masonry on this building may be anticipated in the near future.

The balcony in the gymnasium at the High School was boarded up, the seats removed, and the space made ready as a locker room. This work was done by the Athletic Association. The balcony and some of the adjoining ante-rooms were painted by the C. W. A. workers.

Since the opening of schools in September, the committee has taken advantage of an offer by several young teachers to do "cadet" work in the schools; i. e., assisting the teachers, and aiding pupils needing additional help. One of these is supplying some of the service formerly given by the drawing supervisor in the grades. These cadet teachers serve without compensation, for the sake of keeping in training, and their service is rendered without obligation on the part of the School Department.

Following the closing of the Hamilton School, the use of the building was turned over to St. Joseph's Parochial School, which assumes all operating costs.

During the year, Henry N. Oliver, Woodville School janitor, passed away and was succeeded by Eugene Lenners, transferred from the closed Hamilton School.

Late in the year, on request of Lynnfield citizens, the Committee ex-

pressed the sentiment that it contemplated no change in the arrangement by which high school pupils from Lynnfield attended the Wakefield High School. As yet, with the double sessions, the presence of about one hundred Lynnfield pupils creates no seating problem and the tuition arrangement is of financial advantage to the town.

The principal of the High School reports a total enrollment for the regular four years of 1120. The morning session of the three upper classes, totaling 763 pupils, nearly fills the building to the capacity originally provided. Enrollment is divided as follows:

	Boys	Girls	Total
Post Graduates	13	14	27
Seniors	92	99	191
Juniors	119	125	244
Sophomores	147	154	301
Freshmen	181	176	357
	<hr/> 552	<hr/> 568	<hr/> 1120

The principal believes that the standard of work is not as high as when the longer day gave teachers more time to devote to slow or indifferent pupils; that the freshmen and eighth grades are more seriously affected than upper classes; that with more children unable to attend college there should be more rather than less vocational work; and that the elimination of the domestic arts department has been a distinct loss to girls. New or changed courses for eighth grade pupils incompetent to do regular high school work are recommended. He reports satisfactory results from the experiment of 1933 in guiding pupils away from the college preparatory course if they are not capable of doing the work.

Continued progress and satisfactory work in education and character building are reported by him for the Boys' Glee Club, the Hi-Y Club, the Inter Nos Club for girls, the High School Orchestra and the Boys' Band.

This year's program changes make it possible for practically every pupil to attend physical training classes, but the classes are large. Locker-room problems demand solution.

Because of the size of the graduating classes and the tendency of graduates to seek pleasure elsewhere during the evening of the reception, the principal recommends some change in the old system. This problem is to receive the immediate attention of the committee.

In athletics, the High School won the basketball championship of the Middlesex League last year and had a notable year in cross-country running, winning the equivalent of the championship. As a reward, the principal runners were given a trip to the Interscholastic Meet at Newark, New Jersey, which was financed largely by the school. In football, the season of 1933 was less successful than in 1932, due to the loss of star

players, injuries, ineligibility, and the fact that schools above Wakefield's class were opponents.

Facts of public interest from the reports of other elementary school principals are:

Report by teachers' committee on selection of geography books adopted and books purchased.

Improvement is noted in teaching of English under Open Door Language Book system.

Special English books for High School industrial department and "repeaters" adopted.

Penmanship of high standard, attributed to supervisory work, results in high percentage of pupils winning merit awards.

Safety instruction emphasized in Greenwood School.

School savings system discontinued by Savings Bank, pending more prosperous times.

Franklin School playground reported in poor condition and at times unfit for children.

Special work in character training has been started in the Warren School.

The report of the School Physician appears to indicate, on basis of statistical information, that the health of school children has not suffered under economic conditions due to the depression. There has been no increase in number of pupils under weight, in fact there was an actual decrease in the number of under-weight notices issued, although statistics are not sufficiently complete to detect small variations.

Candidates for athletic teams have been examined, games attended and minor injuries dressed.

All pupils immunized in 1932 for diphtheria were "Schicked" and positive or non-immune cases re-immunized. The total number was 329.

The parents or guardians of all children in the first three grades were invited to have their children immunized, and 263 pupils were so treated. The following is an illustration of how it works. A child of pre-school age was sick for a few days with sore throat. A few days later his older brother developed a severe case of diphtheria, and upon culture the first child was found to have the disease. Three other children of the family who had been immunized remained well. In another family the immunized children remained well. In both instances they were in close contact throughout the disease.

There have been very few working certificates issued this year, and consequently few examinations.

The pupils in the first grade, sixth grade, special classes and first year high school have been given a complete physical examination and the results entered on the health cards. As a result, 575 notices of defects were issued, of which 227 were for defective teeth, 245 for defective or diseased tonsils, 41 for underweight, 14 for organic lesion of heart, 16 for contagious or parasitic skin disease, and the balance for minor defects. This runs very close to the results of last year's examinations.

All the other pupils have been examined for defective teeth and diseased tonsils, and disease of the exposed skin and eyelids, and as a result, 904 notices issued, of which 584 were for diseased teeth or gums, 310 for defective or diseased tonsils, 8 for diseased eyelids and the balance for minor defects.

There is some apparent neglect in caring for diseased teeth, but not markedly more than usual. There was an actual decrease in the number of underweight notices issued, though the statistics are not sufficiently complete to detect small variations; that is, notices are not issued unless the child varies 10% from the established chart.

APPROPRIATION AND RECEIPTS

The Committee has submitted a budget which calls for an appropriation of \$250,000.00 for the year of 1934. Properly deductible from this amount is about \$40,000.00, the estimated receipts through the Department. Although these receipts are paid into the Town Treasury, they favorably affect the tax rate and leave about \$210,000.00 to be raised by local taxation.

The estimated receipts are from the following sources:

Commonwealth of Massachusetts, on account of teachers	\$22,650.00
Commonwealth of Massachusetts, Tuition, State Wards	2,000.00
Town of Lynnfield, Tuition	11,590.00

CLASS SONG

From balmy port a ship sets sail,
To try her skill throughout the world.
She's built to weather any gale
By restless Seas of Life unfurled.
Her course is narrow, long, and straight;
But still undaunted waits her crew,
Ambitious now to challenge Fate
And bring the ship her honor due.

For THIRTY-THREE we name this ship;
And Classmates, all must pass the test
Of sailing on a toilsome trip
To reach new land—our future quest.
Our Captain has prepared us well,
It's now our turn the helm to take;
And hence our parting thought we tell:
"We can, we will" our journey make!

Words by Gladys Parker, '33

The accounts of the Treasurer have been examined and agree with the Accountant's books. Cash balances have been verified by bank statements. All permanent and temporary loans cancelled during the year by the Treasurer have been examined and found as reported.

I take this opportunity to thank the Honorable Board of Selectmen, and all other Town Officials who have co-operated and assisted in the work of this department.

Respectfully submitted,

HARRY A. SIMONDS,

Town Accountant.
